Advanced Decision-Making Skills

Global Professionals Institute for Training
معهد المحترفين العالميون للتدريب النهلي

Introduction

Decision-making is at the heart of effective leadership and management. This course is designed to help participants develop advanced decision-making skills by exploring various methods, tools, and techniques that support sound judgment in complex situations. Through practical exercises, case studies, and interactive discussions, participants will learn to make confident, data-driven, and ethical decisions, even under pressure. This training will enable leaders to address challenges, minimize risks, and drive successful outcomes.

Course Objectives:

- ✓ Understand advanced concepts and techniques in decision-making.
- ✓ Learn to analyze complex situations and make informed decisions.
- ✓ Enhance critical thinking and problem-solving abilities.
- ✓ Master tools for data-driven and evidence-based decision-making.
- ✓ Improve ethical and responsible decision-making.
- ✓ Develop strategies for making decisions under uncertainty and time constraints.

Program Methodology

A highly interactive combination of lecture and discussion sessions will be managed to maximize the amount and quality of information, knowledge and experience transfer. The sessions will start by raising the most relevant questions, and motivate everybody finding the right answers. The attendants will also be encouraged to raise more of their own questions and to share developing the right answers using their own analysis and experience. Course material through power point equipped with necessary animation, learning videos, and general discussion to provide participants with full understanding concerning the subject course will be provided.
